

## **CASE STUDY: PDF-WORD CONVERSION**

### **COMPANY**

Client is a UK Based Publisher, Publishing e-books in UK. He has more than 2,70,000 books pertaining to History, Economics, Articles and other fictions books to be converted to e-book format as per the Client's requirement.

### **PROJECT**

Client Approached E-Datatranc with the task of converting all the books to e-books for his business purpose. The Client invited E-Datatranc to work on this Project converting all the books to e-books. All the books are scanned and uploaded to E-Datatranc secured FTP. E-Datatranc Team has specific method to convert PDF Images to e-book format (WORD).

E-Datatranc Team of 20 Data Operators have successfully working on this Project from past one and half year. We have deployed a dedicated team with a Team lead for this Project.

### **THE PROCESS**

E-Datatranc Team will download the files from Secure FTP and Start converting the files through OCR Software. Then the individual files are compared with the Source files as per the specification provided by the Client. E-Datatranc makes daily deliveries and also meets weekly targets. We convert 2000 pages per day.

### **RESULTS**

We are delivering the files in-time with Quality, Client is Happy with the way we work and deliver the Output. E-Datatranc has become preferred Vendor/Partner for all the Data Conversion Projects for this UK Based Publisher.
